2/10/06                      R04-01-025                      Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

**Summary:** On February 7, 2006, Marcie Milner, Director of Regulatory Affairs, Shell Trading Gas & Power, (Shell Trading), met with Brian Prusnek, advisor to Cmmr. Chong, in San Francisco. Also present were Andrew Campbell of the Division of Strategic Planning, and Edgar Kuipers, Director, Market Access for Shell NA LNG, LLC, and John Leslie, attorney for Shell Trading and Coral Energy Resources, L.P. (Coral). Written materials (attached to the notice) were used. Leslie noted that in the infrastructure adequacy proceeding, Coral has asserted that if a shipper or customer bears the incremental cost of a downstream transmission system expansion project that is required in order to accommodate increased gas supplies at a new or expanded receipt point, the shipper should receive priority access rights at the receipt point in the amount of the expanded capacity. Dr. Kuipers stated that Shell Trading

supports Southern California Gas Company's (SoCalGas) and San Diego Gas & Electric Company's (SDG&E) proposed maximum Wobbe limit of 1400 as well as a Wobbe index range of plus or minus 4 percent. Leslie noted that the reasons for proposed 1391 and 1360 Wobbe limit (concerns about the performance of DLN/DLE turbines and increased NOx emissions) are not valid. Leslie explained that California Environmental Quality Act does not apply to the gas quality phase of the proceeding. Milner urged the Commission to act quickly on the gas quality issue in order to provide certainty to Shell Trading and to all other new suppliers that must make facility investment decisions and long-term gas supply commitments.

2/10/06                      A04-12-004                      San Diego Gas & Electric Company and Southern California Gas Company, for authority to integrate their Gas Transmission Rates, establish firm access rights, and provide Off-System Gas Transportation Services.

**Summary:** On February 7, 2006, Marcie Milner, Director of Regulatory Affairs, Shell Trading Gas & Power, (Shell Trading), met with Brian Prusnek, advisor to Cmmr. Chong, in San Francisco. Also present were Andrew Campbell of the Division of Strategic Planning, and Edgar Kuipers, Director, Market Access for Shell NA LNG, LLC, and John Leslie, attorney for Shell Trading and Coral Energy Resources, L.P. (Coral). Leslie discussed the status of the 'system integration' phase of this proceeding. Leslie stated that Coral supports the establishment of Otay Mesa as a joint receipt point for the Southern California Gas Company's (SoCalGas) and San Diego Gas & Electric Company's (SDG&E) systems, with no 'pancaked' rates for the delivery of gas to SoCalGas customers when the gas is shipped across the SDG&E system after delivery to Otay Mesa.

2/10/06                      R93-04-003                      Commission order instituting rulemaking on Commission's own motion to govern open access to bottleneck services and establish a framework for network architecture development of dominant carrier networks.

                                    I93-04-002                      Commission order instituting investigation on the Commission's own motion into open access and network architecture development of dominant carrier networks.

**Summary:** On February 8, 2006, Michelle Robinson, Vice President-Regulatory, Verizon California Inc. (Verizon), met with Kelly Hymes, advisor to Cmmr. Grueneich, in San Francisco. Also present was Kevin Collins, Senior Staff Consultant, Financial Planning & Analysis, Verizon. Robinson discussed the ALJ's draft decision (DD) addressing Verizon's permanent UNE rates. Robinson explained that the DD contains several critical errors and outdated conclusions and that the cost model used generates a number of illogical results that must be corrected.
